

We urge you to continue broadcasting news, weather and road reports on XM Radio. I am a long haul truck driver and it is essential that I stay up to date with the road conditions and potential delays in traffic. The entertainment provided on XM Radio has enabled me to stay more alert and aware while driving. We really appreciate this service and wish it would have been available years ago. Please reject the NAB's petition 04-160. Any questions or if I can be of further assistance, feel free to contact me at the e-mail address above. Sincerely,
David R. Watkins, III
